

NENE VALLEY BRCA LARGE SCALE OFF ROAD 2022 NATIONAL SERIES: ROUND 2

Thank you to all that attended round two of the BRCA LSOR National at Nene Valley, which once again we thank you Nene Valley for accommodating round two at short notice. What an awesome weekend it was! The weather was stunning and it was all set to be a fantastic weekend of battles across all classes. With 67 Drivers in total, it was always going to be exciting...and it was!

Nene Valley Raceway as always did not disappoint. With the tracks gigantic back straight and the technical jumps and table tops, it was set to test the drivers. With the main drivers briefing complete and the new junior drivers briefing (which was lovely to see) and the drivers raring to go, the sun was shining and the track was on top form.

On Saturday, practice went smoothly and the newer drivers quickly became familiar with the track. It was then time for the first qualifying rounds. With the short course out first, which included some of the sections juniors it was a great watch. With a few crashes here and there, it was clean racing and set up the rest of the day for all classes. The afternoon flew by and with the drivers preparing for the big day on Sunday it all went quiet in the pits with only the sounds of drills and spanners could be heard.

Sunday.... Raceday! With Short Course out first the second qualifiers got under way. With Gary ready at race control and the refs in position it was time to start those engines. All the qualifiers were complete and this set up the grids for finals. With the sun still shining, the track was dry as a bone and any last minute set up changes were well under way.

Finals... well where to start? There were some fantastic battles across all classes with drivers racing for top 3 positions to get the bumps up. All finals were exciting and the four wheel drive buggy final was a great watch with P1 and P2 only being 5 seconds apart for most of the race. The two wheel drive class, always courteous as ever also saw the juniors shine. Short Course saw some great bump ups going from the ¼ final all the way to the main A final with a total of 65 minutes of finals racing! Juniors also bumping up.

Over all, a successful and very enjoyable weekend of racing, laughs and sunshine.
