The exact wording of the rule after your proposal has been approved would be :

All BRCA 1/10th Section committee members must wear BRCA (only) official Branded clothing at race events where they are carrying out BRCA duties.

Description\Justification

The rational behind this is to all BRCA member to know who is officially representing the BRCA at sanctioned events like nationals and regional races. It's highly inappropriate when when other manufactures shirts are worn when representing the BRCA in a official capacity. Additionally, I feel that the BRCA also has a a obligation to promote itself at these high profile events.

***If proposal is amended, the new proposal being approved for the handbook would be:**

BRCA Number :-

The exact wording of the rule after your proposal has been approved would be :
There will be separate finals for U13 & U16 age groups at the Championships. The two age groups for Veterans will run as one Class in Qualifying and split into V40 & V50 classes for finals. 3 legged finals be run for each class. There will be individual trophies for the two age groups.

Description\Justification
For the last few veteran championships. A lone V50 driver has qualified in the top 10 and so ran in the A final with only V40 drivers. Even if they won the final or came last, this would have no effect upon the outcome of the V40 or V50 results. Splitting the age group would mean a proper race and a chance for any of the top 10 V50 drivers to win the overall V50 event.

The exact wording of the rule after your proposal has been approved would be :

At Sanctioned events ONE type of control tyre will be adopted for the driven axle on 2WD cars and the rear axle of 4WD cars (same choice for both classes). The front axles tyre of 4WD cars will be limited to ONE type of control tyre. The non-driven axle on 2WD cars will also be limited to ONE type of control tyre., All control tyre choices are subject to conforming to rule 23.7. Sanctioned event host clubs will select the control tyres known to work best at their venue and the Section committee will subsequently approve the choices. The make and type of the control tyres to be used at National events will be specified on the National Championship entry form and also in the confirmation document. There will be no restriction on the number or compound of tyres used.

Description\Justification

Aimed to limited to need to purchase and carry multiple tyre choices to events which in most cases is unnecessary waste. Also simplify what can often be confusion tyre selection for those new to sanctioned events. The proposed rule wording still give scope for host clubs to nominate different tyres across the events (as now) and therefore retains fairness across manufacturers

BRCA Number :-

The exact wording of the rule after your proposal has been approved would be :
4wd Front tyre rule

Description\Justification
Allowing the use of glue to the outer or inner part of a 4wd front tyre, the grip levels of nearly all 4wd front tyre options are too high to make the car enjoyable to drive, this reduces the 4wd numbers which is the opposite of what we want
